

StarBoard FX-77GII INTERACTIVE WHITEBOARD

Deliver, manage, and explore high-impact interactive lessons with the pen-driven FX-77GII.

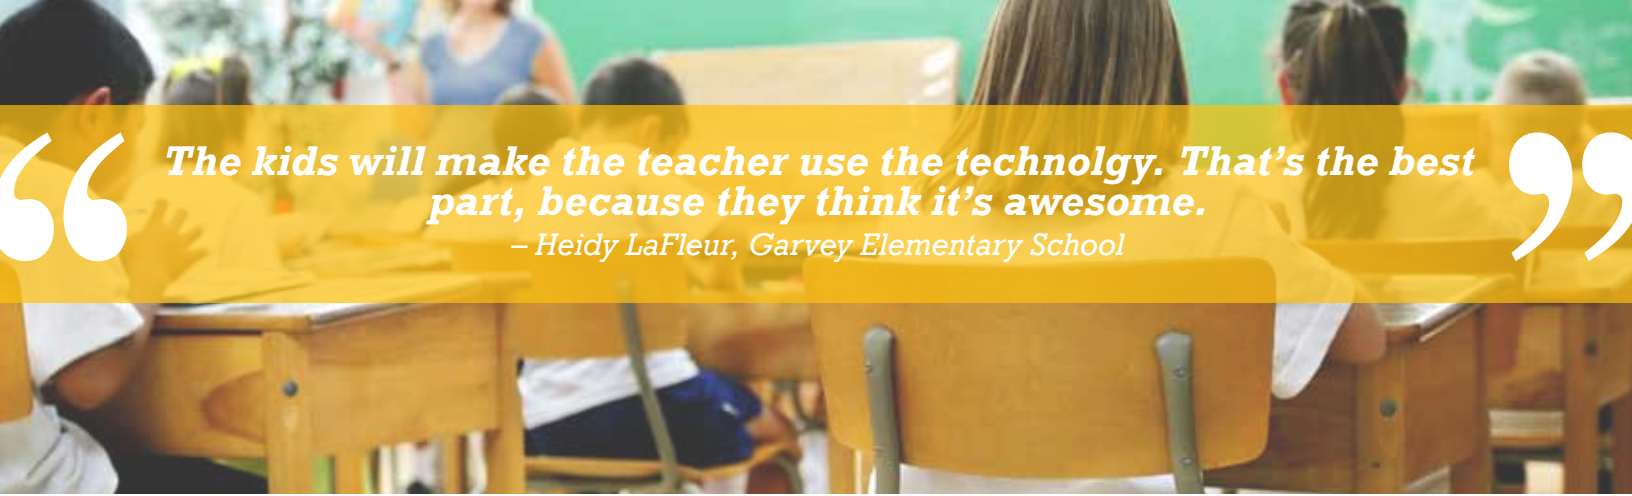

Designed with Education in Mind

Combining the simplicity of a whiteboard with the power of a computer, the StarBoard FX-77GII interactive whiteboard connects to your projector to display your desktop on the interactive whiteboard. You can then control applications on the screen, write notes in digital ink and save your work to share later.

Multimedia Curriculum

The pen-driven interactive whiteboard also comes with StarBoard software, which helps you create, deliver and manage high-impact interactive lessons. Explore a website, give a history presentation or take a virtual field trip without ever leaving the interactive whiteboard.

HITACHI
Inspire the Next

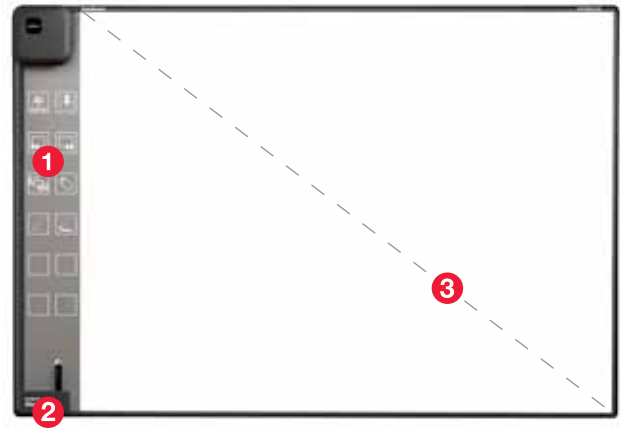

The kids will make the teacher use the technology. That's the best part, because they think it's awesome.

– Heidi LaFleur, Garvey Elementary School

StarBoard*FX-77GII* INTERACTIVE WHITEBOARD

Finger-driven, multi-touch technology that is easy to learn and easy to use.
